

# Program Plans: Outcomes and Assessment Methods

## Program (SSB) - ACCT - Accounting (MS) - 002

---

**Program Mission Statement:** The mission of the School of Accounting is to engage students, alumni, and other stakeholders through accessible, world-class accounting education, useful and timely research, and relevant professional outreach.

The educational mission of the school varies with our three programs (B.S., M.S., and Ph.D.):

- Masters (MS): At the Masters level, we seek to develop students who have strong technical and technology skills; exhibit ethical behavior; demonstrate good teamwork and leadership; are good communicators; and are critical thinkers. These students should have passed (or be very close to having completed) a certification (usually CPA) by the time they graduate and should be the indisputable top choice for recruiters in Oklahoma and surrounding states. The CPA pass rates should place them in the top 50 schools in the United States.

Over-arching all missions is the concept that faculty, staff, students, and alumni participate as organizational citizens. We are recipients of significant allocations of taxpayer dollars; generous donations of funds from our alumni, recruiters, and other stakeholders; and student tuition and fees that often require great sacrifice on the part of our students and their families. We have a responsibility to act as wise stewards of these resources. Our role is to build upon a tradition of excellence established by those who have preceded us and to hand to the next generation a school well-positioned to compete and contribute in the future.
