

Program Plans: Outcomes and Assessment Methods

Program (AG) - AGED - General Agriculture: Agricultural Leadership (MAG) - 302

Program Mission Statement: The Department of Agricultural Education, Communications, and Leadership faculty are committed to preparing agricultural leaders of national prominence in the areas of education, leadership, and communications.

Within each discipline area, departmental faculty will develop life-long learners who understand science, can think critically and creatively, treat others with honesty and respect, and are prepared to be leaders in the agricultural education, communications, and leadership professions.

The department will offer progressive and dynamic graduate programs that attract outstanding graduate students who will become outstanding educators, communicators, leaders, researchers, and society members.

Program Information

2018 - 2019

Program Information

Assessment Coordinator's Name: M. Craig Edwards

Assessment Coordinator's E-mail Address: craig.edwards@okstate.edu

Number of Students Enrolled in the Program: 12

Total Number of Students Graduated: 0

Number of Student Graduates from Stillwater Campus: 0

Were university assessment funds used by the department/program for assessment activities?: Yes

If yes, describe how funds were used and the contribution the funds had on the assessment process: Assessment funds were used primarily to support the stipend of a graduate student (1 month) who assisted with data analysis and preparation of the assessment reports. The remainder was used to purchase related office supplies, copying expenses, etc.

Number of Student Graduates from Tulsa Campus: 0

Annual Executive Summaries

2018 - 2019

Program Assessment Coordinator: M. Craig Edwards

Plan Review and Approval

Date Current Plan Was Reviewed and Approved: 09/11/2017

Date of Future Plan Review and Approval: 09/09/2022

Summary of Assessment Findings

Dissemination of Findings

Program Improvements Based on Assessment

Program Improvements Made in the Last Year: Curriculum Improvements

Goals for the Coming Year: Consider alternative assessment approach(es) aligned with "curriculum improvements."

Is this Summary Report Complete?: Yes

List all individuals associated with this report preparation: M. Craig Edwards; Mahamane Cisse; Chelsey Thompson

Outcome: Knowledge

Program (AG) - AGED - General Agriculture: Agricultural Leadership (MAG) - 302

The Master of Agriculture, Agricultural Leadership degree (MAG-AGLE) is designed to further develop the knowledge and skills of students preparing for entry or advancement in extension, administration, and other professional careers in agriculture. Most students in this program do not wish to conduct an original research study or continue beyond a master's degree. A total of 32 approved semester credit hours of coursework are required, including a two credit hour creative component. The creative component is usually completed as a special project in AGLE 5102. This project may be a written report of a literature review, an action research project, a curriculum development project, or a similar project approved by the student's graduate committee.

Outcome Status: Active

Planned Assessment Year: 2018 - 2019

Outcome Type: Knowledge

Assessment Methods

Analysis of Written Artifacts - N/A (Active)
<p>* Learning Outcome Goal/Benchmark: No goal defined. Timeline for Assessment: Each semester. Related Documents: AECL_General Agriculture+Agricultural Leadership-MAG_rubric.pdf</p>
Oral Presentation - N/A (Active)
<p>* Learning Outcome Goal/Benchmark: No goal defined. Timeline for Assessment: Each semester. Related Documents: AECL_General Agriculture+Agricultural Leadership-MAG_rubric.pdf</p>
